

COMPARE FELLOWSHIP 2022-2023: CALL FOR APPLICATIONS

Compare is a leading journal of international and comparative education, publishing eight issues a year of high quality articles on diverse issues of educational policy and practice around the world. It is the official journal of the British Association of International and Comparative Education (BAICE), which works to support activities of research, teaching and collaboration in the field. In order to maintain its significant global standing, one of *Compare*'s missions is to develop the diversity of its authorship, and support underrepresented groups, in light of the significant inequalities of global academic publishing. For this reason, it established in 2017 an annual *Compare Fellowship*, to support early career academics from the Global South in disseminating their research and scholarship to a global audience.

The fellowship will run from 1 September 2022 – 31 August 2023 and provide full financial support (including travel, accommodation and subsistence) for the following activities:

- Attending and presenting at the BAICE conference in Edinburgh, UK, 13 - 15 September 2022 (subject to COVID restrictions)
- Attending the *Compare* writers' workshop at the conference (a full-day course for early career researchers)
- 2 - 4 week stay at an institution in the UK following the conference (to carry out library research, attend academic events, interact with colleagues and develop publication ideas with the guidance of a mentor)

While in their country of origin, the *Compare* Fellow will be expected to engage in the following activities:

- Participating in e-mentoring
- Developing an article for *Compare*
- Facilitating the organization of activities to support academic writing for other academics in their institution/country
- Participating in *Compare* as a reviewer
